Frame 30 x 30

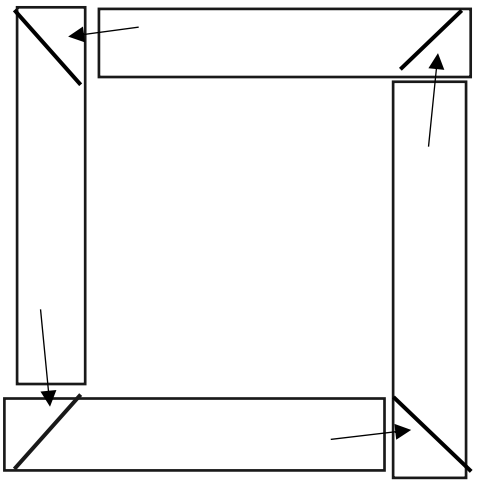

What you will need:
4 card blanks (15x30cm)
1 backing sheet (30x30cm)

1. Take a card blank and place short edge at top of score board on the centimetre side.
2. Score at 1, 3, 8 and 10cm
3. Turn card clockwise so long edge is going across the top (make sure the 1 and 3cm are at the top)
4. Score at 5cm from the top to the second score line.

5. Cut away the red line as shown in diagram above.
6. Place red liner tape where the blue line indicates on diagram above.
7. Turn card over so red liner tape is facing down, and fold all score lines inwards.
8. Take off backing tape and stick making sure tab is on inside.
9. Do this with all 4 pieces
10. Glue together using wet glue, to do this, lay all 4 pieces out with the cut out facing upwards. Place the glue on the cut out piece, and then insert the none cut end of another piece into the glued section. Do this with all pieces until a frame is formed.

15x15cm frame card

You will need 2 card blanks (15x30cm)

1. Score 1 in half at 15cm for the Card blank.
2. Cut the second piece into 4 (7.5x15cm), these are to make the frame.
3. With the short edge at the top, score at 0.5, 1.5, 4 and 5 cm, turn cardstock and score 2.5 cm to the second score line. Then follow the main instructions to create frame.
4. Stick frame onto front of card blank.

15x30cm frame

What you will need
2 card blanks (15x30cm)
1 card blank (15x15cm)

1. Cut 2 pieces from one card blank (7.5 x 30cm each)
2. Leave the second 15x30cm blank as this is for the backing
3. Then cut the 15x15cm piece in half to give you 2 pieces both 7.5x15cm. This gives you the 4 pieces for your frame.
4. Follow score lines and measurements from the frame card instructions above.
